

Program Writer – US Math Recovery Council®

US Math Recovery Council® is dedicated to overseeing and managing the Math Recovery® program and its materials, methodology, and related intellectual properties in the United States.

We currently have immediate openings for full time Program Writer positions to contribute to the creation and roll out of Math Recovery® courses and support. This position has the option to work from a home-office or from the USMRC office in Eagan, MN. Duties are as follows:

- Design and write professional development materials for the delivery of Math Recovery® programs.
- Deliver professional development during phases of development including testing and launch of new program.
- Contribute to action research, testing, evaluation, and development strategies that lead to effective product design.
- Maintain relationships with educational settings conducive to development and research of new program including permission to video work.

Requirements

- Bachelor's Degree in Education. Master's preferred.
- Current Math Recovery® Intervention Specialist (MRIS) designation.
- Five+ years related experience or equivalent combination of education and experience in mathematics learning and teaching practices or related activities.
- Outstanding written and verbal communication skills with strong grammar skills.
- Sincere commitment to work collaboratively, as well as independently, with staff, program participants, and other supporters.
- Interest and/or experience working with technology for educational purposes.
